

2018 Neuroendocrine Tumor Conference

For Patients, Family Members and Caregivers

Sunday, January 21, 2018, 9:30 am – 5:00 pm (*pre-conference Primer begins at 8:30 am*)

Mission Bay Conference Center, 1675 Owens Street, San Francisco, CA

Patients, caregivers and those interested in neuroendocrine tumor (NET) treatment and management are invited to join us in a day packed with helpful information and support. The day will feature nationally-renowned UCSF and Stanford NET experts, along with other internationally-known physician specialists who will speak on immunotherapy, tumor bio-markers, PRRT, current clinical trials and strategies for living well after diagnosis. A pre-conference “primer” is also offered on the basics of NETs as well as smaller breakout sessions for specific disease types and for caregivers.

There is no cost to attend this conference. Includes light breakfast, lunch, snacks and validated parking.

Presented by the UCSF Helen Diller Family Comprehensive Cancer Center and NorCal CarciNET Community in collaboration with Stanford University and the NET Research Foundation and with generous support provided by industry partners.

Co-Host: **NorCal CarciNET Community**

Registration ends on January 14, 2018.
