

Neuroendocrine Tumor Education and Support Group

Clinical Trials 101

With Emily Bergsland, MD

Dr. Emily Bergsland has led numerous clinical studies in patients with gastrointestinal malignancies. Her current efforts are focused on clinical and translational research related to neuroendocrine tumors. At a national level, Dr. Bergsland is a member of the Neuroendocrine Tumor Task force for the National Cancer Institute and a member of the NCCN NET guidelines panel. She is also the study chair for a national study of a novel treatment for patients with carcinoid tumors performed by the ALLIANCE for Clinical Trials and funded by the National Cancer Institute.

In collaboration
with Northern California
CarciNET Community

**Wednesday, July 10
12:00 noon – 2:00 pm**

**Mission Hall
550 16th Street
(entrance on Fourth St.)
Room 1406**

A light lunch will be served.

The presentation will be from 12:00 – 1:00, followed by a patient and family discussion facilitated by Erin Schwartz, LCSW.

*Open to ALL patients with NETs or Carcinoid and their partners, caregivers, and family **regardless of where you are receiving care.** Due to the focus and intimacy of a support group, it is closed to others.*

To help with our planning, please register to attend at bit.ly/sfzebra. Drop-ins are also welcome.
