

# UCSF Neuroendocrine Wellness Clinic

Would you like to know what is available just for you?

## The UCSF Neuroendocrine Wellness Clinic

is a multidisciplinary clinic designed to address the complex needs of patients living with neuroendocrine tumors.

This consultative clinic will help supplement the care that you are receiving from your oncologist.

**During your one visit you will spend approximately 30 minutes with each of the following providers:**

**Nurse Practitioner:** review your diagnosis, provide you with a treatment summary, and answer any questions that may pertain to your treatment or diagnosis

**Social Worker:** discuss any psychological or financial needs

**Oncology Dietitian:** review up to date dietary recommendations for patients with NET's

**Exercise Counsellor:** evaluate your current exercise regimen and make recommendations

**Cancer Resource Specialist:** aid you in accessing any additional resources and support available to you, your family, or support team

UCSF Center for  
Neuroendocrine Tumors
